

## **Stardom appoints TechnoScan as the official distributor for Denmark, Sweden and Norway**

Taipei Taiwan, 25th March 2010 – Stardom announces in appointing TechnoScan as the official distributor to supply Stardom equipments throughout the countries of Denmark, Sweden and Norway.

TechnoScan has an excellent reputation as a true “value-added” distributor with a strong market presence in document imaging and data storage.

TechnoScan has been distributing Stardom storage enclosures bundling hard drives as complete solutions for many years already, it shall continue to sell Stardom units to all dealers and system integrators with or without harddisks as required. This also includes providing afterservice and stocking spare parts and perform maintenance on all Stardom product lines.

About TechnoScan:

TechnoScan is a value added distributor and service partner to resellers throughout Norway.

TechnoScan was established in 2000 with a strong focus on scanning and storage, backed by high levels of service and support.

TechnoScan distribute document scanners from Panasonic, Fujistu and Avison, large format scanners from Contex.

TechnoScan distribute storage products from Atto, Sonnet, Raidon and Enhance.
