

The ideal storage plat-form, the perfect creative ensemble.

Features

All new "plat-form" exterior design.

With an exterior design that directly focuses on the better usage of your workspace, the new DECK Series unites storage & computer system to keep your creative environment clean and simple. With its top surface capable of withstanding up to 15 kgs. of weight, placing a display monitor or iMac would be the perfect creative ensemble. Or simply stack multiple DECKs together for an even greater amount of storage space.

I/O ports right up front.

With USB2.0 and Firewire 400 extension I/O ports brought up right to the front panel, you will have an easier time in connecting digital devices such as your iPod, your optical drive or even your digital camera much more quickly and conveniently without having to strain your body with awkward motions.

Built-in multimedia reader.

With a built-in multi-card reader and positioned right at the front, this saves you dollars in having to purchase a separate reader and leaves you a cleaner desktop. Multi purpose media slots available in SD/MMC series, CF/MD series, SM/xD series and MS series.

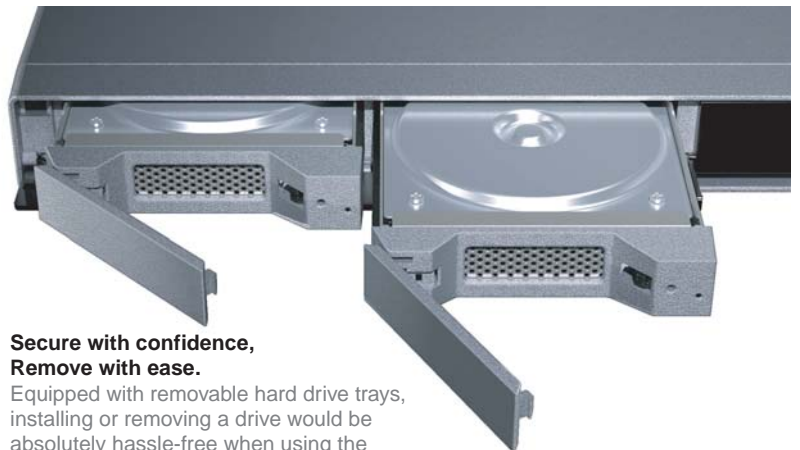

Up to 2TB of storage.

If your digital life consists thousands of creative digital snapshots, video clips and music masterpieces, then the DECKTANK is the perfect external storage solution for simple digital content archiving. The DECKTANK Series comes with 2 drive bays capable of supporting up to 1TB in capacity each.

Peaceful and Quiet.

Due to its form factor and physical dimension, the DECK Series holds plenty of internal room to allow adequate airflow so the enclosed drives can operate comfortably. It's also equipped with 2 rear heat extracting fans that are practically silent, moreover, it's fronted with a venting panel to bring in cool air in leaving you with a peace of mind while you work.

Applications

Secure with confidence, Remove with ease.

Equipped with removable hard drive trays, installing or removing a drive would be absolutely hassle-free when using the DECKTANK. Each drive tray is equipped with a locking mechanism to securely lock the drive into place and avoid accidental removals in keeping your drive and data safe.

It's Time Machine friendly.

Yes! The DT2-WBC is capable of supporting the Time Machine included in the Mac OS X Leopard. Via Firewire 800, all of your Time Machines files can be speedily backed up to the hard drives in the DT2-WBC.

If setting the DT2-WBC to the RAID 0 mode option (combining capacity of both enclosed drives), you can have up to 2TB of Time Machine storage! If set to JBOD mode, you can choose one out of two drives as the designated Time Machine storage and the other for other storage usages or leave it as spare if the other drive becomes full. Whichever way you choose, the DECKTANK DT2-WBC gets the storage job done. It's that easy.

All Firewired up!

The DT2-WBC provides high-speed Firewire 800 interface connections to connect to your iMac, Mac Pro and even Xserve for you to easily expand out your storage from your systems. It's also equipped with an USB 2.0 interface connection to bring convenience to be used on multiple computer systems without Firewire 800 connections.
