

For true digital content mobility and interchangeability
The iTANK i302 Series

The iTANK i302 holds any capacity of hard drive for easy on hand portability of data and equips a removable drive tray that allows you to quickly access different drives without any hassles, providing nothing but true digital content mobility and interchangeability.

Innovative & solid architecture

Built solid, the i302 provides exceptional protection to the hard drive enclosed. Its fan-less design and aluminum built body dissipates heat faster for you to work quietly and comfortably.

It's Time Machine friendly!

Yes! The iTANK i302 is capable of supporting the Time Machine included in the Mac OS X Leopard. Through any interface connections provided by the i302, all of your Time Machines files can be backed up speedily.

Multi interface connections

Quadruple connections including eSATA, Firewire 400/800 and USB 2.0 model available that provides great usage flexibility across different computer platforms.

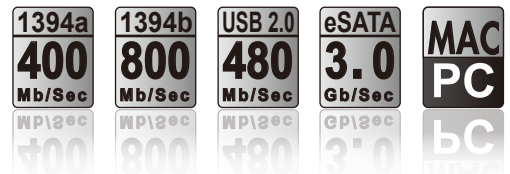

Removability for multiple drive access

The i302 comes equipped with removable drive trays, therefore, installing or removing a drive would be absolutely hassle-free! It supports various capacities of SATA drives up to 2 Terabytes. If you may need to access data inside your 100GB, 320GB or 1TB drive, they can all be done through the enclosure!

For a wide range of applications

The iTANK i302 is designed for a wide range of usages from data, MP3, MPEG archiving to creative professional applications such as audio, video and photography productions.
