Hardware Installation Guide

Follow these steps to install the UBOX-B4BP+:

- 1. Open the Case:** Push the slide lock to the right and the case can be opened.

- 2. Open the Top Cover:** Open the top cover from the case.

- 3. Install M.2 NVMe SSD:** Insert a M.2 NVMe SSD and secure with screw nut.

- 4. Put the Top Cover Back:** Close the top cover to the case.

- 5. Lock the Case:** Push the slide lock to the left and the case will be locked.

- 6. Connect the Cables:** Use the included cable to connect the UBOX-B4BP+ and PC/Mac.

- 7. Power On:** Turn on the system; the OS should auto-detect the disk.

- 8. Format Disk:** Follow OS prompts to format the disk if necessary.

Precautions Prior to Use

- 1. Ground Yourself** – Safely discharge static by grounding before handling components.
- 2. Unplug Power** – Power off and unplug the computer before installation.
- 3. Use a Static-Free Surface** – Avoid carpets or conductive materials.
- 4. Read Instructions** – Review all steps thoroughly before proceeding.
- 5. Safely Remove** – Always safely removed UBOX-B4BP+ through the operating system before remove the USB connection.
